

Horsemen's Camp Water Charge Sharing Offered

Victor Jenny of Mountain Center whose property adjoins the 12-acre site formerly used as a prison camp and now proposed for use as a campground for horsemen, would like to share costs for delivery of water to the two properties, his attorney advised county supervisors Monday.

The matter was referred to the county road department.

Master Road Plan for County To be Speeded

The county planning commission and road department were asked by the board of supervisors Monday to speed up a master road plan for the county.

"A master plan for roads should be completed and adopted as soon as possible," declared Supervisor Anderson, "so that this county may take advantage of the opportunity to secure subvention funds."

"New monies are available," agreed Supervisor Berkey. "It is important."

The action was instigated by Supervisor Anderson on receipt of a notice from G. T. McCoy, state highway engineer, that \$44,877 has been allocated to Riverside County as its share of additional Federal Aid Secondary Funds for the fiscal year ending June 30, 1957.

The allocation represents the county's share of the first apportionment to California authorized by Congress under the Federal Aid Highway Act of 1956 for financing projects on the county portion of the Federal Aid Secondary System.

County, Schools, City to Share In Trailer Fees

Riverside county has received \$95,602.08 as its share of the first semi-annual apportionment of trailer coach license fees for the period December 1, 1955, to May 31, 1956, Robert C. Kirkwood, state controller, reported this week.

A total of \$1,900,200.69 was distributed to the counties of California.

Riverside county ranked fourth among all counties, Kirkwood said.

According to the law, the county auditor is to distribute the total amount equally between the county, the city—if the address is within a city—and the school districts in which each trailer is located.

JEFF CHANDLER is one of the stars who will be in the Village about the middle of September, for scenes in Universal International's CinemaScope production, "Tattered Dress." Others who will be on location here include Jack Carson and Elaine Stewart. (Anderson photo).

Coachella Valley Soil District Hearing is Set

Tuesday, September 4 at 10 a.m. was set by the board of supervisors Monday as the time for a hearing on the proposed formation of a Coachella Valley Soil Conservation District.

The total acreage of the proposed district is 1,530,000 acres. Of this acreage, 1,003,000 acres are owned by the federal government, the state, public districts, cities and county; the remaining 427,000 acres has 3,366 private owners.

The petition for the district was circulated by Raymond R. Rummmonds of Indio and bore the signatures of 107 property owners.

Phillips Dinner Set for Tonight Is Postponed

Cancellation of Congressman John Phillips' visit to Riverside county and a dinner in his honor scheduled for tonight, Thursday, at Riverside was announced today by George E. Stanley, Corona, chairman of the Riverside County Republican Central Committee.

Congressman Phillips has been requested by Vice-President Richard Nixon to serve on the Republican pre-convention platform committee, and will be meeting with that committee this week.

The Phillips dinner, which was to have been held at the Riverside Y.M.C.A., will be postponed until after the national Republican convention at San Francisco, according to Stanley.

CHP Appoints New Area Head

Ruel W. Blohm, California Highway Patrol traffic sergeant, assigned to the Fresno area of the patrol is being promoted to state traffic lieutenant and assigned to the Indio area, according to word released today by Patrol Commissioner B. R. Caldwell.

Blohm's appointment will become effective August 28, and will remain in effect until September 17, at which time he will receive an additional promotion to the rank of captain with the patrol, remaining in the Indio area as commander of that office.

County Delays Land Purchase

County board of supervisors Monday continued for at least one week consummation of the purchase of approximately an acre of land in Cathedral City for a county road yard pending clarification of a problem which County Counsel Ray T. Sullivan, Jr., said has arisen as to the contents of a resolution of intention to make the purchase.

"It may take a little time to resolve the matter," said Sullivan. The purchase price for the property is \$2,584.18.

Someone Has Seasons Wrong

Someone has their seasons mixed up.

A four by 20 foot tarpaulin was found by police Monday night at the intersection of Tamarisk and Caballeros.

This in itself was not unusual, but written on the tarpaulin was "This Is It—1955-56 Winter Home of the San Diego Padres."

Police are holding the canvas for the owner.

Youth Arrested, Found AWOL

A 17-year-old youth was arrested by Palm Springs Police early Monday morning and charged with being absent without leave from Shepard Air Force Base, Shepard, Texas.

The discovery of the youth being AWOL for approximately three weeks came after he was brought in for questioning at 3:20 a.m.

He was released to Marine military police on authorization of March Air Force Base.

Carnation corner

Sunday! Monday! Any day in the week is the right day for Carnation Fresh Peach Ice Cream. It's so delicious! Carnation uses carefully selected, full-flavored peaches... picked at the very peak of ripeness... and blends their luscious flavor all through smooth Carnation Ice Cream. Extra pieces of these sweet, juicy peaches are added, too, to lend even more goodness. No wonder folks say, "Only Carnation could make it so good!" Taste it! You'll agree!

I'm never stuck for dessert when I have Carnation Fresh Peach Ice Cream on hand. My family loves it served plain, or anyway I choose to fancy it up. It's so extra-smooth and flavorful it adds a special luster to even the simplest meal. Try these easy-to-fix Peach Ice Cream treats and see for yourself.

Sunday Dinner Fruit Compote

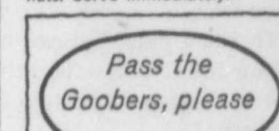

Fill sherbet glasses about one-half to two-thirds full of diced, fresh, chilled pears, bananas and pineapple. Top with generous scoops of Carnation's Treat-of-the-Month, FRESH PEACH ICE CREAM. Serve topped with whipped cream.

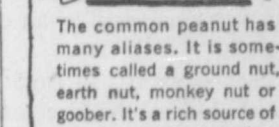

MONDAY SUNDAY (Good any day of the week)

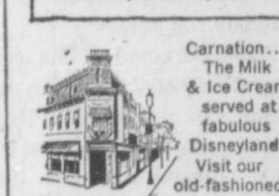

Blend 1/2 cup marshmallow topping with about 1 tablespoon warm water. Place several scoops CARNATION FRESH PEACH ICE CREAM in each serving dish. Top with marshmallow sauce. Sprinkle with peanuts or other chopped nuts. Serve immediately.

The common peanut has many aliases. It is sometimes called a ground nut, earth nut, monkey nut or goober. It's a rich source of protein and is technically a fruit, not a nut. The original home of the peanut is uncertain, but it was probably Brazil. Peanuts grow so well in this country, however, that we produce more than a billion pounds a year.

CAUSE FOR ALARM

Application of the Palm Springs Builders Supply Company for a zoning variance permit to operate a concrete ready-mix plant two miles west of Cathedral City has caused much concern by property owners in the vicinity who are planning residential development nearby. It is the same old issue that comes up quite frequently: keeping Palm Springs free from any industry that could prove objectional in this resort area.

The County Planning Commission wisely put off a recommendation until Sept. 25 when another hearing on the application will be held. The hearing held at the end of July resulted in a number of protests and a complaint by Ned Mitchell, that he had not been given notice. This is the sort of thing which should not be acted upon in the middle of the summer when so many residents are away. The Planning Commission's deferment of action will give more time for a careful study of what effect the plant might have on residential development of the nearby property.

Complete details of the plant and other use of the property should be available to the Planning Commission, the Board of Supervisors and the owners of property in the vicinity. It may be that the plant would not prove objectionable but every precaution should be taken to protect any residential section in the entire resort area from industry that would be in any way harmful.

Indio's Position Made Clear

While on the subject of industrial development we might comment that recent action of the Indio Chamber of Commerce was no doubt appreciated by many people in this end of Coachella Valley. The citizens of Indio have made it clear that they welcome the establishment of industries in that area. This made some people over this way feel that we could not count on Indio's cooperation in keeping undesirable industries from getting permits to become established in this resort end of the Valley where they could do a lot of harm.

RECOGNITION EARNED

Dr. Benjamin Goldberg, after a long and distinguished medical career in Chicago, decided several years ago to retire. He came to Palm Springs to live, and has been a year-around resident ever since.

He liked Palm Springs, and maintained an interest in affairs here although not actively participating in community projects.

This inactive interest came to an end when the children of the community needed more school rooms, and he has continued his civic work ever since, establishing himself as one of the leaders in this county.

His first campaign, that of securing passage of a \$2,125,000 school bond issue, was successful by an overwhelming margin.

Then came a call from the Superior Court Judges of Riverside County to head the 1955 Grand Jury. He responded, and under his direction, the Grand Jury compiled an outstanding record of achievements. To this day — many months after the Grand Jury was discharged — he is still contacted by county officials for advice.

While foreman of the Jury, Dr. Goldberg discovered inadequacies at the Riverside County General Hospital at Arlington, and with his past experience he was imposed upon to undertake the remedying of this situation.

He undertook the promotion of a \$2,404,000 bond issue for repair of present buildings, and construction of new buildings at the hospital.

And again he was successful.

But he was not through. More money

The Indio Chamber of Commerce has now gone on record that, while they invite industrial development in their area, they realize that it would be harmful to Palm Springs and vicinity. We need and appreciate this sort of cooperation. Both ends of the Coachella Valley can well afford to work together for their own progress and protection.

County's Industrial Expansion

While most of the recent step-up in industrial development in Riverside county has been in the western section, it is interesting to note its progress. A recent report of George C. Gerwing, secretary-manager of the Riverside County Board of Trade—which is working to increase the proportion of industrial employment in the county—says that plans have been announced for new manufacturing plants by 10 firms in the past year. Gerwing says that his group is working with four companies which contemplate locating plants in the county at this time, and that he believes the trend indicated by the first quarter of this year will continue.

There seems little doubt that it will be possible to interest some companies in establishing industrial plants in Coachella Valley in the near future. If established in suitable locations, light manufacturing plants would not injure the resort area, and would help produce a year-around economy.

This matter of the appropriate development of different sections of the county is a very important one and can sometimes cause much controversy. Restricting the use of land for which people have paid good money is also a ticklish problem sometimes. But zoning is of the greatest importance to a resort and recreational area like Palm Springs and vicinity. Without proper protection this community and its environs could be easily spoiled, and the millions of dollars spent in developing one of the nation's few exclusively resort areas placed in great jeopardy.

was needed. So he continued working, and after many hours of preparation and several trips to Sacramento he secured a grant of \$439,526 from the State and Federal governments for a geriatrics wing at the hospital.

Tribute was paid to Dr. Goldberg by the Riverside County Supervisors in a resolution of appreciation, and also by the county seat newspaper, the Riverside Daily Press, which editorialized:

"To the acclaim given Dr. Benjamin Goldberg of Palm Springs Monday by the County Board of Supervisors we would like to add a second voice.

"Beginning with his work last year as chairman of the last Grand Jury and continuing this year as consultant to the supervisors, Dr. Goldberg has worked long and hard to get General Hospital's facilities improved.

"His efforts in behalf of the hospital bonds, overwhelmingly approved by county voters in June, were of special significance.

"And now, Dr. Goldberg has been able to confirm to the supervisors that State and Federal grants totaling \$439,526, which money will be used toward construction of a new county hospital building to house the elderly and the chronically ill, have been approved.

"Credit for persuading the State Health Department of the need for these allocations belongs chiefly to Dr. Goldberg. Riverside County owes him a vote of thanks."

And Dr. Goldberg is not through. He now is supervising the hospital construction.

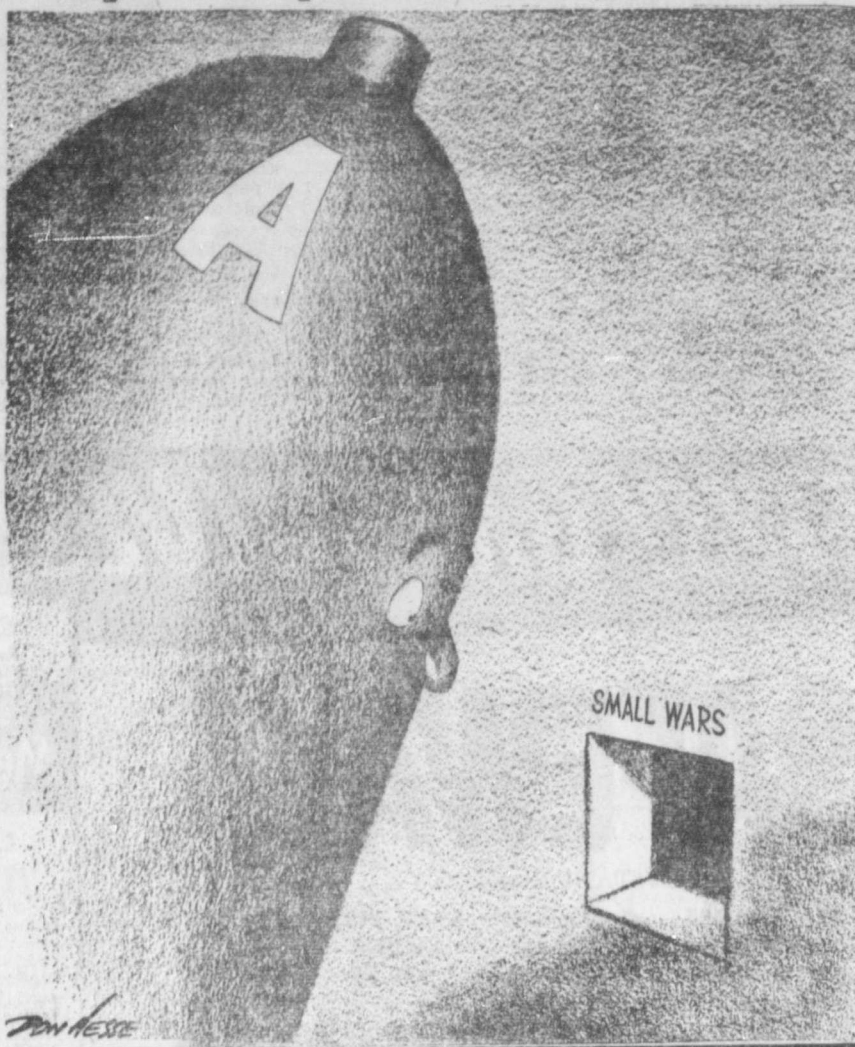

He has not received one cent of taxpayers money for his efforts. His is the spirit of America—the spirit of giving without asking anything in return.

Palm Springs and Riverside County residents owe him for many things.

We recommend that this be demonstrated visibly—with every city council in the county following the action taken by the supervisors.

Let recognition be given where earned.

Big Round Peg for the Small Square Hole

THIS SIDE of The Sun

By Phat

In the springtime a young man's thoughts may turn lightly to love—but in the good old summertime, his elders dwell on thoughts of improving the breed at \$2 per enhancement.

This occurs to me every time I let the man up in front in the diesel whisk me from the Union Station to the conjugation of the turf and the surf.

TRAFFIC BEING what it is, I haven't essayed the trip too often but everytime I have, at the sellers' windows, it's like dropping in at the Chi Chi. You see so many familiar faces. It's different at the cashiers' windows. That could be because I'm not prone to queue up there.

But I almost missed the daily double the other day because of seeing so many Villagers and exchanging some well-chosen words with each about the desert.

Wish I had missed. Would be \$2 better off.

DEL MAR is a great place. All of the comforts and conveniences of Big City tracks with bucolic charm.

The other day, just before the third race, a little rabbit scampered down the track. I went to the nearest window to put \$2 on the opposite end of the cottontail but they wouldn't let me. Said it wasn't entered. Seems to me you have to be pretty fast to scratch a rabbit.

LOS ANGELES is making a great fuss about trying out the "scramble" system. All auto traffic will stop while people scurry across the street in all directions.

Hek, we've been doing that in Palm Springs ever since the first pavement was laid.

Which reminds me, is anything being done about traffic signals at the Y, where Palm Canyon and Indian get together?

BY THE WAY, what's become of all of the coonskin caps and other appurtenances of Davy Crockett? Even Estes Kefauver dragged back his coonskin.

What brought that to mind is the fact that tomorrow marks the 170th anniversary of the birth of Davy in Hawkins County, Tennessee. August 17, 1786.

He started young. Got a shot in a bar when only three.

THIS MAY BE the age of Rock 'n' Roll but I am duly grateful to a Village resident, Earle C. Anthony. His radio station KFI every day puts on a couple of hours of rhythm. Guy Lombardo, Freddie Martin, Wayne King, all that soothing music. The foot-tapping, not the disc-dislocating kind.

Lullaby stuff wherein you don't break a vertebra digging.

NOTED AN INTERESTING contrast on TV last night. Some cigaret commercials still show the principals lighting up in the midst of the forest primalval.

And right after the boy and the girl had puffed unconcernedly while seated or a tuft of dry undergrowth, a public service film pointed out that "Only YOU can prevent forest fires."

Congressional Report

By JOHN PHILLIPS

Everyone in public life knows, as soon as he does, anything which pleases his friends, they want to run him for some higher office. The wise office-holder takes this urging for what it is: an expression of appreciation and courtesy.

From 1933 to the fall of 1941, my reply to suggestions that I run for Congress was that I would be glad to, just as soon as they held the sessions in California.

When the 22nd District was formed, of Orange, Riverside and Imperial counties, I was invited to a luncheon at Mapes cafeteria, where the same group, for the most part, which had put me into public life and supported me generously and consistently, told me they were no longer "asking me," they were "telling me" I was a candidate for Congress.

The reasoning was simple; they said if I ran, there would be little or no contest; otherwise, in a new district, there would be a dog-fight. As I look back, I do not know yet why I consented; perhaps you can't refuse your friends who have, in the words of the song, made you what you are. As to the idea of "no contest," well, the end of the filing period found five candidates filed for the Republican nomination and six for the Democratic. The battle was on.

I SAID I WOULD TELL you about the "Joint Legislative Fact-Finding Committee on Employment." As chairman of the committee on Institutions (the successor committee to one called "Social Security, Pensions and Relief") I had supervision and budget concern for the Department of Social Welfare and for the Olson-organized "State Relief Administration," the "SRA."

My committee and I would point out the duplications, the wastes, and the infiltration of both political and communistic influences into the SRA, but we might as well have shouted across the desert. It is an American trait to give to any "cause" which contains the words, children, needy, veterans, or the like.

A recent Congressional investigation of a "fund," raised annually for the "benefit" of disabled veterans, by a nationally known veterans organization, showed that only 12 per cent of the money collected got to the needy veterans, but the charter granted this organization was so broad that nothing could be done about it by the Congress.

THE GOVERNOR WOULD ask for increasing amount, for the SRA, \$79-million one year, \$120-million the next (remember a million was quite a sum in those days)—all of which duplicated the efforts and aims of the Department of Social Welfare. The attitude of the Legislature was that it would rather appropriate money and have it wasted than fail to take care of some needy family!

BILL RASHALL

Unedited

At various times during the years that have passed, your reporter has urged members of the official family of this city of the growing need of a public relations advisor.

This man, if and when he should ever be hired by City Council, would advise that august body of brainy men just what they should say for public consumption, and what events when they do occur should be tempered with considerable logic. Also, what effect, if any, official statements to the press would have upon the future growth of Palm Springs and its relationship with other neighboring communities.

Also have boldly stated to City Council as a whole and personally that the suppression of news is equally as bad as saying the right thing at the wrong time.

ALL OF THIS WAS brought to mind over the weekend when several persons on the Coast questioned me about how much smog Palm Springs residents were wiping out of reddened eyes. This smog, they understand, is drifting all the way down to the desert from Los Angeles county, a matter of more than 100 miles. The distance also includes some pretty high mountains which for thousands of years have kept rain and bad weather from descending upon our little bit of heaven called Palm Springs.

Now I know, and you know, who came up with a story about smog filtering down through San Geronimo Pass. Everytime I write something about this gentleman's doings I understand the result is indignation for him, followed by a lengthy period of silence during which he does not greet me with any warmth at all.

His story to the alien county newspaper—that is, alien to Palm Springs—was picked up by columnists and metropolitan newspapers until it finally reached the ears of a large group of people down Newport way. I found myself in the midst of these very nice people and had nothing else to do but figuratively fight the yarn with barbed words of denial coupled with laughter, in order to ridicule the story but not the gentleman who opined that smog was a-rolling into Palm Springs.

COULDN'T VERY WELL ridicule him "cause that would have been bad too. I just said he drank too much coffee that morning—a morning when he was just leaving Los Angeles, when his smog reddened eyes and nostrils begrimed with the same stuff, couldn't see when he entered our city limits or couldn't inhale the fresh air of our desert.

Since I read this story by a member of our official family have talked to many of our residents asking about our smog situation. They have all looked at me as though I were "tetched in the head."

EARL WILSON:

Address 'Leavenworth, Russia'

CHICAGO—The Wilsons played it very smart about the San Francisco convention. No hotels for us—we rented an apartment on Russian Hill . . . on Leavenworth Avenue.

It is NOT in Russia and it is NOT in Leavenworth Penitentiary, so there! It is in an excellent section. The B.W. will spend all day making beds and I will spend all day putting out the bottles. We won't get to the Cow Palace and confuse ourselves with a lot of facts.

"THE FOLLY OF FACTS" is something I learned as an old convention-follower since 1932.

In '48 a fellow told me Henry Wallace was going to be nominated for Veeep that afternoon. "Are you sure?" I asked. "I know for a positive fact," he said. I wore my feet out trailing Wallace so I could get the victory statement.

When Harry Truman got it, I said, "WHO?" I'd hardly heard his name. Facts had gotten me all mixed up. (This will also explain why I wasn't Postmaster General in the Truman Administration.)

"It was a well known fact" in '32—when I went to my first convention (the Democratic) in Chicago—that we had prohibition. It was the first time I'd seen any heavy drinking. One young reporter there got his first bad hangover. Groaning, he came to and said:

"Man, if I ever get over this, I'm sure going to do it again." It's another fact that in '48 I had a press badge at Chicago and that my B.W. had a radio repairman's badge. A further fact is that on the big night Quentin Reynolds, the main orator, sneaked my wife in with his wife and himself onto the speakers' rostrum, on the very front row, while I watched through spyglasses from a Popsicle stand in Evanston.

YET SOME THINGS stand out sentimentally—for example, Robert A. Taft's theme song, "I'm Looking Over a Four-Leaf Clover," which I never got tired of, even when they played it at 8 a.m. in Philadelphia.

I can still see slim-waisted, peppery Jimmy Walker in Chicago in '32 quipping to the photographers: "Pardon me, boys, but what paper will these pictures not appear in?"

Anyway, I wrote the above so that our head of the City Council and Mayor of Palm Springs shall know that I have been doing my duty as a good citizen. And I still insist that somebody trained in press relations should scrutinize carefully all official statements which may affect the economy of this resort area.

ED BACON for year has been needing me about the proposed San Jacinto tramway. Long a critic of the San Jacinto Winter Park Authority, Bacon refuses to concede that a tramway will eventually be erected here. And Ed, I know that these men have given hundreds of their precious hours away from their businesses to fight the devious pathways and obstacles that have beset their progress. They have spent of their own money, too. However, Ed writes the following which is not really funny but shows his running battle with the Authority:

"With the steadily increasing capacity of helicopters can you not make yourself a local benefactor by suggesting to the San Jacinto Winter Park Authority the use of these flying machines in place of the \$12,000,000 tramway? Then, if you can secure the insurance concession you will be fixed for life." Funny man!

HAVE RECEIVED a number of letters from Villagers here, there and abroad. On my desk this A.M. is one from George and Mickey Wheeler. The two have motored across Switzerland, Austria and Western Germany and were about to roll into France when they postcarded to me.

"This is really living," is the title of a postcard from Fae and Stan Jallof of the Beachcomber Shops here. They are in Hawaii. Also on my des.: a memo from Martha Jeffers in Hail, W.I. "It's a wonderful trip with so much to see," she writes.

There'll be golf courses coming out of our ears if present plans by three or four groups bear completion.

I know positively that the Capital Investment Company directors will seriously consider the construction of an 18-hole golf course on land opposite the Steak Ranch. One portion of this golf course would touch the southeast city limits of Palm Springs. Of course, it will have a subdivision in conjunction with the development. The location is out of the wind area and its proximity to Palm Springs will be most desirable.

Well, Ben Shearer, if we cannot have a municipal golf course, and we should I believe, we will have others. And most important of all you are in full agreement with me on golf courses for the City of Palm Springs, except one owned by the city. O.K. Ben, you may have a point or two in your favor.

And I recall Will Rogers unwinding from the press box at that Democratic convention where Huey Long was so prominent—until the arrival of FDR—to go to the rostrum and say:

"I'm going to do something very unusual . . . I'm going to say a good word for the Republicans."

When they applauded—just because he said it—Will held up a warning hand. "Please," he scolded, "don't take up my time laughing."

Surely the Conventions are the Greatest Shows on Earth, and the costliest to the men who go through the wringer. Herb Shriner had the sagest advice of all when he admonished a close friend, "Now you be careful when you go out there—and don't get yourself nominated."

THE MIDNIGHT EARL . . . Frank Sinatra and pretty brunette Florence Wyatt joined the merriment at the Compose . . . Is Farouk secretly planning to stop here—at the St. Moritz? . . . Most of those voting YES on Ingrid Bergman quote the Bible's "Let him who is without sin, etc."

Billy Daniels has more gal-trouble, in London this time . . . Peter Palmer, an ex-GI with no pro stage experience, got the "Li'l Abner" title role . . . Denise Darcel, chaperoned by sister Helene, dated ex-husband Peter Crosby at the Harwyn . . . Singer Doreen Davis will be at Palisades with the Joe Franklin show.

Ex-boxer Lou Nova's poetry readings drew bigger crowds in Philadelphia than in N.Y. Says Lou: "New York's just a fight town" . . . Marion Marlowe's hobnobbing around on a twisted knee . . . Bob Hope's film, "Seven Little Foys" — he owns 44 per cent — has grossed \$6,000,000 so far . . . Sophie Tucker, at El Boracho, admitted to being 69 . . . The dancing Szonys, who busted up, are back together again.

Paul Douglas will tour in a 50G Cadillac to plug "Solid Gold Cadillac" . . . Lori Nelson first blind-dated disk jockey Bill Bradley as a favor to Debbie Reynolds — since then it's been her own idea . . . Larry Storch tucked a tissue instead of a handkerchief into his breast pocket for a TV'er and said, "See? Show business is SO phony!" . . . If B'klyn wins the pennant, Jersey City will ask that one of the games be played there.

New Secretarial Aid Approved For Dr. Goldberg

A part-time secretary for Dr. Benjamin Goldberg of Palm Springs to serve him in his capacity as consultant to the County Board of Supervisors on matters pertaining to the County's General Hospital at Arlington, was authorized by the board Monday, after the matter was brought up by Supervisor George Berkeley.

The board recently, with Supervisor William Jones absent on vacation, voted in acquiescence to a request by Dr. Goldberg, that all matters concerning construction of buildings at the general hospital such as architectural matters, plans, specifications, building contracts and bills be referred to him for study and recommendation to the board.

Dr. Goldberg as consultant has had much to do with the County Hospital building program to be carried out by the \$2,404,000 bond issue recently approved by the voters, and has also been greatly responsible for securing the allocation of \$439,326 of federal and state monies.

The money to pay for Dr. Goldberg's secretary will be taken from the extra help fund of the Board of Supervisors. Dr. Goldberg receives no reimbursement for his many hours of assistance to the county, other than for expenses.

Couple Visits Orphan Village

Mr. and Mrs. Herbert O. Phillips of Palm Springs, last week spent an entire day visiting the Moose Child City, Mooseheart, Ill., and saw first hand the marvelous work that fraternity is engaged in, helping to care for and educate boys and girls who have lost one or both parents.

Every year hundreds of thousands of vacationers visit this unusual community and the Phillips' echoed the sentiments of all of these that "here is Brotherhood in action" as they toured the beautiful campus, very much like any other suburban village or community.

As is the case with all visitors to Mooseheart, the Phillips' were given a personally conducted tour by a child resident.

Villager Wins Frozen Foods

For her prize winning entry which placed in the runner-up division, Mrs. Fields received a supply of the products of Kold Kist, the frozen food firm, sponsoring the contest which continues for two more weeks with 28 winners named weekly.

Mrs. Fields has been winner of several other contests.

Supervisors Hold up Bidding on New Fair Buildings Until August 27

"I'd like to have this held over," said Supervisor George Berkeley when a letter was received by the Board of Supervisors Monday from Bob Fullenwider, county fair manager, asking for an allocation of funds for construction of a dressing-costume building at the county fairgrounds in Indio and requesting the advertising of bids to be opened September 10.

"I'd like to see it held over," agreed Supervisor Fred McCall. "It's an awful lot of money."

"I'll certainly go along," said Supervisor Paul Anderson, "but last year we put ourselves on a spot. We waited so long there wasn't time to get re-bids."

The decision: to delay action until August 27. Fullenwider requested a transfer of \$18,000 from the county fair reserve fund. He said the State Division of Fairs and Expositions has verbally promised an allocation of \$15,000 in October, and he added that any balance could be taken from money budgeted for outlays which can be deferred until another year.

This would indicate an expenditure of upwards of \$33,000. However, the bids on the dressing rooms addition last year ranged from \$25,600 to \$31,700, and some cuts have been made in the plans since then. Architect Herman O. Ruhnauf of Riverside said there should be a reduction of some \$2,000 by elimination from the specifications of outside heating for the

pageant cast and some of the painting originally planned. He said after the meeting, that the cost should be under \$37,000. The dressing rooms were omitted from last year's fair building program when the board decided that the lowest bid of \$218,889 was too high and cut it to \$166,768, omitting some of the planned construction. There was not time enough to re-advertise for revised bids and get the buildings finished for the February fair.

Transportation Note

NASHUA, N. H. — E. Chester Wilson has solved the problem of getting his trash barrels put out regularly. Using 825 pieces of laminated wood and seven pounds of glue, he built his 12-year-old son, Everett, a tiny automobile that is powered by a two-h.p. motor. Young Wilson uses the automobile to transport the barrels from the cellar to curb.

Swindle

DETROIT — A Detroit landlady complained to police that she had just collected \$100 in rent from a tenant when the stranger approached her, flashed a badge and demanded to see the money. He told her it was counterfeit and said he would take it to headquarters for a check. That was the last she saw of the stranger and the \$100.

Four Couples Hold Reunion In Germany

Four couples, all members of Thunderbird Country Club, held an impromptu reunion in Baden-Baden, Germany, according to word received here from Co and Maggie Thornton, 470 Camino Norte.

The Thorntons arrived in Baden-Baden and were hailed by the Fred Klemp. They went into the dining room together and there met the Sayres, and after dinner went into the lounge and ran into the Clarence Browns.

The Thorntons left Baden-Baden to go to Copenhagen, Denmark, where they planned to meet the Pearsons (Mrs. Pearson is a sister of Mrs. Newton Hotchkiss).

Their son, Tom Thornton, who is serving with the U.S. Army in Germany, will meet them in Gothenburg, Sweden, for a week's tour of that country. They previously enjoyed a weekend together in Nuernberg about a month ago. He will return to the United States the end of January, and plans to spend February in Palm Springs.

Two Los Angeles Area Couples Wed In Poolside Ceremonies Friday Night

In double-ring ceremonies Friday evening, Judge Eugene E. Theriau officiated at the wedding of Jacqueline Wood of Los Angeles and W. J. Grant of Inglewood, and George Chick and Lorne Meitold, both of Los Angeles. The attractive setting was poolside at the Amarillo Bungalows, 1577 Indian Trail.

Shrubs which formed a background were filled with bougainvillea blooms, and together with a spotlighted cactus garden, a lovely desert theme contrasted with the formality of the wedding party.

Mrs. Grant was attired in a blue nylon cocktail length dress, with pink accessories, and Mrs. Chick wore a pink nylon lace gown, with a corsage of orchids. Arrangements for the wedding were made by Mrs. Jessie Manifold, owner of Amarillo Bungalows, with the assistance of the Chamber of Commerce, Palm Springs Police Department, the AAA club, and Mr. and Mrs. H. H. Wiefels.

Among guests who witnessed the impressive ceremonies were Mr. and Mrs. J. Royle, who also are newlyweds, honeymooning at Amarillo while their new home is being completed here; Mr. and Mrs. Thomas Rieder of San Diego; Mr. and Mrs. Albert Finer and their guests, Mrs. Charles E. Gentry, who is enroute to Indonesia where she will join her husband who is with the U.S. Embassy staff, and Ralph Warren.

A wedding breakfast was served Springs Biltmore Hotel, Saturday morning.

Why Thrifty Drug Stores have put their managers and assistant managers on a 5-day week

Thrifty Drug Stores are proud to announce a revolutionary step forward: A 5-day week for Store Managers and Assistant Managers!

Although it is the general practice of retail organizations to insist that a Manager be in his store six days a week and despite the fact that Thrifty Drug Stores are open seven days a week, Thrifty believes that Store Managers should enjoy the same shorter work week as other members of the Thrifty family.

We believe that we are the first retail organization in the West to establish the 5-day week for Store Managers and Assistant Managers. It is another Thrifty first. And we are proud of it!

Thrifty Managers are dedicated men who live with their jobs. They feel a personal responsibility to the communities they serve.

Something has been said about the lack of any sign... a decline in house prices... Let's look at the house of some years back...

Generally speaking the rooms are larger; more and better insulation is a factor; better, and more flexible electrical systems are included; forced air furnaces, air-conditioning, or air-cooling units are usually a part of the house of today; large, movable, glass walls are usual; kitchens, more often than not, are well equipped with cabinets and built in appliances.

In spite of the fact that the home of today costs a little more than the home of yesterday, the prospective home-buyer finds that he is getting better quality and more for his money... It's sure Harold Hicks has been seen again in Palm Springs.

WE HAVE BEEN noticing that ladies fashions seem to be going back to the early 1930's... High waisted, drapes, silhouettes, fur muffs and then some... That's all right for the ladies—if the men can stand it... Just so long as we don't get the idea to go backward in our house designing and building... Nice progress has been made in the line of shelter during the past 10 years—especially here in Palm Springs... Take a look around and see... We'll all agree that we will willingly trade the thing that looks like a bustle off the bedroom for an extra bath.

Terry Ray drove down Palm Canyon Drive. With most of the trade unions

either getting, or looking forward to, an increase in pay, it might be a good idea for the men to consider putting that extra buck or two into buying a home... It's the best way to save.

Ernie Dunlevie drove up Palm Canyon Drive.

WATCH OUT FOR the "creepie peepie"... The one-man portable TV camera... They'll probably use them for the first time at the main political conventions this year... Certainly opens up a wide field... Real Estate men can now leave the prospect in a nice cool office, go out and televise the property right into the prospect's lap... My! My! We can hardly wait.

Culver Nichols drove across Palm Canyon Drive.

Ray, Dunlevie, Nichols, and George Gannon, drove down Palm Canyon Drive... Theresa Press drove across Palm Canyon Drive... They met... For the result, see next week's column... That's escrow for today...

Can Calculation

NEW YORK — Can-making plants along the Atlantic seaboard turned out 32 per cent of all cans made in the U.S. last year, according to the American Can Company. T. E. Alwyn, vice president of the firm's Atlantic division, said that plants in this area produced 3.8 billion cans for fruits, vegetables and juices in 1955. 2.2 billion for beer and ale and led the rest of the nation in the production of coffee cans.

SIX-GUN PALS Dean Martin and Jerry Lewis shoot straight at the funnybone in "Pardners." Technicolor musical western now showing at the Village Theatre. Four new songs by Sammy Cahn and Jimmy Van Heusen sparkle among the laughs in the Paramount comedy, which co-stars Lori Nelson, Jeff Morrow, and Jackie Loughery, with John Baragrey, Agnes Moorehead and Palm Springs' Mickey Finn.

All Stars, Long Beach Tie 3-3 After 11 Innings

Desert League All Stars and the Long Beach All Stars battled to a 3 to 3 tie in the 11th inning of the year's final game of the year played at the Polo Grounds. The game was called due to the late hour, as Long Beach players had to return home that night.

The visitors scored first, in the second, and added another run in the fourth. The Desert Leaguers tied the game in the fourth, with Herb Rauch homering. Each team scored final runs in the sixth.

Palm Springs had the winning run on base in both the tenth and eleventh innings, but couldn't bring him around.

Sharing pitching duties for the Desert Leaguers were Neil Green, Frank Prieto and Bill Tichenor, with Art Jurado behind the plate. Bill Potts went all the way for Long Beach, giving up only three hits.

Abe Santorice was manager of the local squad.

Colt Leaguers Split, Win Eleventh, Then Drop Extra Inning Game to Bell

Palm Springs Colt Leaguers split even in games played Friday and Saturday, defeating Blythe, 3 to 1, and then dropping an extra-inning 5 to 2 decision to the Bell Chamber of Commerce team, champions of the Golden State League.

Bobby Flores gave up only six hits in taking credit for the win.
